
J. Would you ever discuss your HIV test results with your sexual partner?

1. Yes
2. No

K. If your answer is **NO** could you tell us why? (Choose **one or more** reasons from the following list)

1. I am afraid of him/her reacting with violence
2. I do not trust him/her enough to talk about it
3. I do not believe he/she has to know since this concerns only me
4. I do not think he/she will understand
5. I am afraid he/she will leave me
6. Other reason (Please specify):
